Letter of Recomendation

Date: 28/09/2021

To Whomsoever It May Concern

It is with great pleasure that I recommend **Meghashyam Parab** for employment in your organization. He worked as a **Machine Learning Engineer** Intern for **GetBoarded Technologies** during the period between May 15th, 2021 and September 17th, 2021. It was four months of dedication, divided into two parts: the internship and the participation in the ALT+F Hackathon with the Project **Lifesy Health Care.** His project got an Honorable Mention since it was one of the most voted by the jury on TAIKAI.

I have been pleased with the way **Meghashyam Parab** carried out his responsibilities with diligence, responsibility, and interest. Besides proving the quality of his hard skills in Data Science and Analytics, he has also perfectioned a variety of soft skills during this experience, throughout the workshops provided by our team. Due to the quality of his work, productivity and timely completion of tasks assigned to him, **Meghashyam** revealed to be a great asset to us.

I, therefore, recommend **Meghashyam Parab** without reservation and I know he will be a great asset to your organization.
